Work Experience

Teaching Assistant - Indiana University Bloomington

Aug 2020 ~ Current

- Assisted the professor in developing course materials, including lectures, and assignments
- Provided academic support by hosting office hours, leading tutoring sessions, and answering student inquiries related to HTML, CSS, and web design principles.
- Evaluated student assignments and projects, offering constructive feedback on HTML/CSS code quality and design practices to help students improve their web development skills.

Projects

Movie Website

Oct 2023 ~ Nov 2023

- Developed a sleek and user-friendly movie website using React, showcasing expertise in front-end development and UI/UX design, inspired by the Netflix UI
- Utilized APIs to fetch and display real-time movie data, enhancing the authenticity and relevance of the content on the clone. - Incorporated advanced features such as dynamic content loading, smooth transitions, and a user-friendly interface to emulate the original Netflix experience closely.

BaronBoost

May 2024 ~Current

www.baron-boost.com

- Developed the frontend of a League of Legends boosting service website that allows users to order boosting services for their League of Legends accounts.
- Designed and implemented the UI with React, integrated Stripe for payments, ensured responsiveness with Styled Components, and collaborated with a backend developer.

Additional Work Experience

Professional Gamer

May 2020 ~ Aug 2020

Team Liquid

- Competed in professional-level tournaments, facing off against the best players in Global and teams in the League of Legends esports industry
- Communicated effectively with teammates during matches and practicing, coordinating actions and sharing crucial information

Military, Air Defence

June 2021 ~ Dec 2022

Republic of Korea Army

- Adhered to military protocols, following orders, and ensuring the proper execution of assigned duties
- Exhibited mental toughness in executing duties, remaining calm and composed in high-pressure situations
